This should say Patti stated that the Delaware Healthy Mothers Information Consortium.</p>	
	<p>Special Meeting – Devoted to Implementation Plans for each Health System – Related to Community Health Needs Assessment – Focus on Hospital/Community Alignment</p> <ul style="list-style-type: none"> • Beebe Healthcare <ul style="list-style-type: none"> • Needs assessment 2013 and 2016 must be done every 3 years. • Implementation plan was driven from the needs assessment <ul style="list-style-type: none"> • (3) Three health care systems Bay health’s, Beebe, Nanticoke and others • 5 highest ranking health needs • Combining the priorities • Partnering with the Community • Healthy Neighborhood alignment • Coalition Strategies that address the needs • County wide data from June 1, 2015- May 31, 2016 • Review what established programs are in the area to intergrade 	

behavioral health and prebudget to plan for some type of program around this area.

- ❖ Bay health's plans
- ❖ Beebe's plan
- ❖ Nanticoke plan

(Please see attached Power Points of each)

- When they looked at total numbers of the people that come in to the ER 50% of spending and 75% of them has a co-morbid disorder.
- Milford is making progress in this area, they can have Dover Behavioral to come in and make an evaluation right on hand.
- Nanticoke is doing similar work, telemedicine
- The health care systems are addressing behavior and mental health needs
- The health care systems are trying to make sure they are working on trying to combine efforts to show apples to apples even if they do things different they want to make sure they are working together.
- Include some of the data from the Power Point That came through the ER departments in all three systems. Mental Health Implementation Strategies
 - Target Population
 1. Individuals with mental and behavioral health conditions
 2. Individuals with substance abuse
- A good place to get data is the health tracker
- Hospital obesity rates
 - A BMI greater than 30
- Sussex County Hospital Nutrition/Dietitian Referrals (June1, 2015 -Maybe 31, 2016) referred for nutrition from a Doctor from 3 years or older.
 - Beebe 32%
 - Nanticoke 4%
 - Bayhealth's 5.46%
- Community Partnership that will make a sustainable partnership and strategies.
 - ✓ Target Population
 - ✓ Objectives
 - ✓ Implementation Strategies
- Cancer screenings Data Cancer Staging
 - ✓ Identify cancer at an earlier stage.
 - Peggy asked if these number are based on if the patient went regularly to their primary care? Are they getting screenings? What are the patterns?
 - ✓ 2015 Low Dose CT Cancer Screening Data Cancer Staging
 - ✓ Nanticoke just started their screening- They are just starting educated the doctors in regards to the screenings and collect the data.

✓ Priority 3 is Cancer Screening and Education

#####Peggy would like to see the referral sheet that the hospitals use
Peggy suggested that it would be nice if other health care organization or organization that see's the public that they could put on their intake form that they ask the question. Do they have a primary provider, etc. If they have any other screenings.

- Nanticoke Health Services
 - Nanticoke Community Health Needs
 - The CHNA Includes:
 - Executive Summary
 - Health Needs What are they for the target community based on data in the Western Sussex Area
